

Cambrian College

School of Business and Information Technology, Creative Arts, Design, Music and Hospitality

Course Outline

Course Title	Acc.for Non-Financial Managers				
Course Code:	ACC7300	Credit Value:	4	Credit Hours:	56
Programs:	BAGC I.T. Business Analysis BTHP I.T. Business Analysis - Hanson HMPD Human Resources Management - Graduate Certificate HUHP Human Resources Management - Graduate Certificate MOBH Organization Management - Hanson MOGC Organization Management MOHP Organization Management - Hanson SCGC Supply Chain Management				
Equivalencies	ACC1100 ACC2310	Prerequisites		Corequisites	

This course may be delivered in a variety of different formats: 100% in-class, 100% online (or a blend of both), videoconferencing, distributed learning or off-campus. Please confirm with your faculty member which format will be used for your section of this course.

General Education Course: ☐

Eligible for PLAR: ☒

COURSE DESCRIPTION

In this course, students will explore the uses of accounting and finance information as required by managers in directing the affairs of business organizations. Managers require this information to plan operations, measure performance, control activities, and make effective decisions in order to achieve the firm's objectives. In this course, students will concentrate on cost behaviour, budgeting, and the use of managerial accounting information for decision-making purposes.

Date: June 01, 2020

Prepared By: Chris Morin

Approved by: 

PARVINDER ARORA
Chair, School Of Business And Information Technology,
Creative Arts, Design, Music And Hospitality

Effective: Fall 2020, Winter 2021, Spring 2021

RELATIONSHIP TO PROGRAM VOCATIONAL LEARNING OUTCOMES

PROGRAM LEVEL	
This course contributes to your program by allowing you to demonstrate the following vocational learning outcomes:	
Program(s)	Vocational Learning Outcomes
I.T. Business Analysis	College Standards 1. Document business processes using effective and established research and documentation methods and business improvement procedures. 2. Develop test strategies to ensure that business requirements and stakeholder objectives for changes to a business system are met.
I.T. Business Analysis - Hanson	Ministry Standards 1. Document business processes using effective and established research and documentation methods and business improvement procedures. 2. Develop test strategies to ensure that business requirements and stakeholder objectives for changes to a business system are met.
Human Resources Management	Ministry Standards 1. Develop, implement, and evaluate organizational development strategies aimed at promoting organizational effectiveness.
Human Resources Management - Graduate Certificate	Ministry Standards 1. Develop, implement, and evaluate organizational development strategies aimed at promoting organizational effectiveness.
Organization Management - Hanson	College Standards 1. Interpret and record business transactions, and prepare basic financial statements.
Organization Management	College Standards 1. Interpret and record business transactions, and prepare basic financial statements.
Organization Management - Hanson	College Standards 1. Interpret and record business transactions, and prepare basic financial statements.
Supply Chain Management	Ministry Standards 1. Determine the value added and financial implications of supply chain decisions and design on overall business profitability, efficiency and stakeholder satisfaction.

COURSE CURRICULUM

Topics/Concepts Covered in This Course

- Introduction to Managerial Accounting
- Interpret the major financial statements and associated financial ratios
- Cost Terminology and Classifications

Topics/Concepts Covered in This Course

- Cost Behaviour, Operating Leverage and Profitability Analysis
- Cost-Volume-Profit Relationships
- Relevant Information
- Cost Accumulation, Tracing and Allocation
- Planning for Profit and Cost Control
- Performance Evaluation
- Responsibility Accounting

COURSE LEVEL: Learning Outcomes and Objectives	
To earn credit for this course, you must reliably demonstrate your ability to:	
Learning Outcome	Objectives
1. describe the organizational structures of an organization and identify the needs for managerial accounting information within the firm.	1.1 Describe the work done by management in organizations, identify the various levels of management, and explain why they need accounting information. 1.2 Outline the components involved in the planning and control cycle, and explain how each step impacts on the work of management. 1.3 Identify and explain the major differences between financial and managerial accounting information.
2. interpret the major financial statements, balance sheet, income statement, and retained earnings statement.	2.1 Discuss and interpret the income statement, balance sheet, retained earnings statement 2.2 Calculate and interpret financial ratios.
3. use accurate terminology to classify costs, describe cost behaviour, and use cost information for profitability analysis.	3.1 Identify and describe the three types of inventories present in a manufacturing operation. 3.2 Define and give examples of materials costs, labour costs, and overhead costs involved in the manufacture of a product. 3.3 Distinguish between product costs and period costs and give examples of each. 3.4 Identify the different terms used to describe costs incurred by a company and explain their accounting treatment. 3.5 Explain the difference between the financial statements of a manufacturing firm and those of a merchandising firm. 3.6 Distinguish between fixed costs, variable costs, and mixed costs and identify examples of each. 3.7 Define the relevant range and explain its significance in cost behaviour analysis. 3.8 Analyze costs using the scatter graph method and high-low method in order to identify their fixed and variable components.

Learning Outcome	Objectives
	3.9 Prepare an income statement using the contribution margin approach. 3.10 Explain how cost behaviour affects profitability. 3.11 Define and compute operating leverage and determine its impact on net income. 3.12 Compute the contribution margin per unit and the contribution margin ratio. 3.13 Define break-even and calculate the break-even point by both the equation method and the unit contribution method. 3.14 Calculate the unit and dollar sales required to achieve a target net income using the contribution margin per unit and the contribution margin ratio. 3.15 Prepare a cost-volume-profit (CVP) graph and identify each of its components. 3.16 Compute the margin of safety and explain its significance. 3.17 Show the effects on contribution margin and net income of changes in variable costs, fixed costs, selling price, and volume. 3.18 Explain the limitations of cost-volume-profit analysis. 3.19 Perform multiple-product break-even analysis and explain the importance of sales mix in determining profitability.
4. identify relevant and non-relevant information for decision making purposes.	4.1 Identify the characteristics of information that is relevant in decision-making. 4.2 Define opportunity cost, sunk cost, differential revenue, avoidable cost, and differential cost. 4.3 Distinguish between quantitative and qualitative characteristics in decision-making. 4.4 Perform analysis involved in special order, outsourcing, segment elimination, and asset replacement decisions. 4.5 Explain the relationship among cost objects, cost drivers, and cost allocation. 4.6 Distinguish between direct and indirect costs. 4.7 Utilize mathematical procedures to make cost allocations and select appropriate cost drivers for these allocations. 4.8 To understand risk through sensitivity analysis. 4.9 To understand the uses of transfer pricing.
5. construct a master budget and establish procedures for evaluating its performance.	5.1 Understand budgeting as a planning process and identify and describe the three levels of planning for business activity.

Learning Outcome	Objectives
	5.2 Explain the advantages of budgeting understand the impact of the budget process on employee behaviour. 5.3 Identify the main components of a master budget and prepare selected budgets and pro forma financial statements. 5.4 Explain the concept of a variance and distinguish among favourable and unfavourable variances for the various components of an income statement. 5.5 Compare a static budget to a flexible budget and explain the advantages of flexible budgets. 5.6 Prepare a flexible budget in income statement format and compare it to actual results by calculating the various flexible budget variances. 5.7 Analyze a net income variance by breaking it down into the selling price/cost variance and the activity variance. Interpret what these variances mean. 5.8 Explain the usage of standard costs and differentiate among ideal standards, practical standards, and lax standards. Enumerate the advantages and disadvantages of using standard costs. 5.9 Explain management by exception and discuss the criteria used in determining which variances warrant investigation. 5.10 Calculate variances in the price and usage of materials and labour and interpret what they mean. 5.11 Define responsibility accounting and the controllability concept. 5.12 Distinguish among cost, profit, and investment centres. 5.13 Utilize return on investment and residual income calculations to evaluate performance.
6. analyze information for capital investment projects and recommend a plan of action for management.	6.1 Explain the meaning of capital investment, the time value of money, cost of capital, net present value, and internal rate of return. 6.2 Identify the typical cash inflows and outflows associated with capital investments. 6.3 Determine the acceptability of an investment project or compare investment opportunities using the net present value method. 6.4 Calculate the payback period for an investment. 6.5 Compute the simple rate of return on an investment.

Essential Employability Skills

Communication

- not applicable

Numeracy

- execute mathematical operations accurately.

Critical Thinking and Problem Solving

- apply a systematic approach to solve problems.

Information Management

- analyze, evaluate, and apply relevant information from a variety of sources.

Interpersonal

- not applicable

Personal

- not applicable

Delivery Method

- Classroom: Course is delivered through scheduled synchronous teaching that may be face-to-face and/or virtual.
- Hybrid: Course combines scheduled synchronous and unscheduled asynchronous teaching.

Learning Activities

- Lectures
- Class Discussions
- Group Work
- Self-Directed Learning
- In-Class Exercises
- Case Studies

Resources Required

Books

Brewer, *Intro to Managerial Accounting*, 6th, McGraw-Hill
ISBN: 9781260332995

Evaluation Plan

Grading Scheme

A	80% - 100%
B	70% - 79%
C	60% - 69%
D	50% - 59%
F	0% - 49%

Evaluation Method	Value (%)
Quizzes/Test/Exam	85%
Nature and number of evaluations which can include Quizzes/Tests/Exam/Case Study are at the discretion of the professor	
Assignments	15%
Number and Nature of assignments at the discretion of the professor	

ADDITIONAL INFORMATION

College

Academic Policies

Students must adhere to all academic policies. These are available on myCambrian as well as the College website at <https://cambriancollege.ca/about/official-documents-and-policies/academic-policies/>.

Prior Learning Assessment and Recognition (PLAR)

Students may contact the Pathways office at pathways@cambriancollege.ca

Transfer Credit

Students wishing to have courses from other programs or institutions assessed for equivalency and/or transfer credit should contact transfercredits@cambriancollege.ca.

Accessibility Services

Cambrian is committed to creating an inclusive learning environment where we support our students' success. Students who are registered with the Glen Crombie Centre can access accessibility and/or counselling services by:

1. Registering and scheduling an appointment through Clockwork in the Student Portal in myCambrian.
2. Contacting 705-566-8101 ext. 7420 or 7311, or
3. E-mailing accessibilityservices@cambriancollege.ca

Testing Practices at Cambrian

Many courses include major tests and/or final exams. The practice at Cambrian requires that these types of test situations involve proctoring to ensure academic integrity. Online tests/exams may employ a proctoring service to enable you to take your exam from a location of your choosing within a period specified by your instructor. When you are taking an online test/exam, the proctoring service may capture your video, screen, audio and web surfing particulars to protect academic integrity. Cambrian College collects, uses, discloses and retains personal information in compliance with the Freedom of Information and Protection of Privacy Act (FIPPA). Your personal information is being collected under the authority of the Ontario Colleges of Applied Arts and Technology Act S.O. 2002, c.8, Sched. F. This information will be used for the purpose of administering a test/exam through an online proctoring service acting as an authorized agent of the College. Please refer to Cambrian's Confidentiality of Student Records Policy for more details. If you have any questions regarding the collection of your personal information, please contact Vice President Academic, Cambrian College, 1400 Barrydowne Rd., Sudbury ON P3A 3V8, 1-705-566-8101.

Wabnode Centre for Indigenous Services

Students are encouraged to come to Wabnode to meet our Elders and to access personal counselling or academic tutoring. Our team will also be able to provide students with information related to funding and scholarship and bursary opportunities for Indigenous students. We encourage students to come to Wabnode for cultural, sports and community activities. Students can also contact Wabnode at wabnode@cambriancollege.ca

Copyright

Students may not submit work or partake in activities that infringe on the Canadian Copyright Act, or the related Cambrian College Fair Dealing Guidelines and Copying Guidelines. The guidelines may be viewed at: <http://cambriancollege.libguides.com/copyrightinfo> or by contacting the Library for questions related to copyright: library@cambriancollege.ca

Out-of-Class Assistance

The faculty will inform students of their Out-of-Class availability through the Learning Management System site (Moodle).

Audio/Visual Capture

Sounds and images from this class, and contributions made by a participant, virtually or in-person, are recorded under the authority of the Ontario Colleges of Applied Arts and Technology Act, 2002. The main purpose for these recordings is to allow students enrolled in this course, whether they attend the particular class in person, virtually, or at all, to review class content and activity.

These recordings may also be reviewed by faculty members to prepare future classes, to evaluate students, to collaborate in program/course development/review, or to provide feedback to students or other faculty. Any questions about this collection may be addressed to your respective Dean.

Equity, Diversity and Inclusivity

Cambrian is committed to building and preserving an equitable, diverse, and inclusive learning community where students, faculty, and staff may achieve their full potential in an environment characterized by equality of respect and opportunity. All students and employees have the right to live and work in an environment that is free from discrimination and harassment. Therefore, Cambrian College will not tolerate any form of discrimination or harassment in its employment, education, accommodation, or business dealings. For more information, please visit: <https://cambriancollege.ca/about/official-documents-and-policies/equity-human-rights-and-accessibility/>

Tests and Evaluations

Students are required to write tests and/or complete evaluations as scheduled. Exceptions may be made in the event of an emergency or a sanctioned event (e.g., varsity sports, field trip, religious observances, etc.). In non-emergency situations, students are expected to contact the faculty member in the event that they can not be present for a test/evaluation to explain the reason for their absence. At the discretion of the faculty member, an alternate time for the test/evaluation may be allowed.

Attendance

Regular attendance is strongly encouraged as it contributes to student success. Some courses have specific lab/participation requirements. Students are expected to be aware of, and adhere, to these requirements.

Modifications to the Course Evaluation Plan

Under exceptional circumstances, Cambrian reserves the right to alter the Course Evaluation Plan. Upon approval from the Dean, faculty members will notify students of any modification to the Course Evaluation Plan and post to the course Learning Management System site (Moodle).
